Colloquia

MSL/CHiBi Colloquia will typically take place on the second Tuesday of the month. This is equivalent to a “rolling retreat” in which MSL and CHiBi lab members present their research to the department’s personnel. The goal is to inform, get critical feedback, stimulate exchange of ideas and methods, spark collaboration, provide students with experience in presenting seminars. Three trainees will present from different labs and disciplines followed by refreshments and snacks in the atrium. All Colloquia take place in the MSL lecture theatre on the main floor. Click the title to view full event details.

- **2017 Gairdner Foundation National Program**
  October 23, 2017 - 3:30pm
  Protein Levels and Neuropsychiatric Disorders: Insights and Opportunities
  Dr. Huda Zoghbi, 2017 Canada Gairdner International Award Recipient - Professor, Baylor College of Medicine; Investigator, Howard Hughes Medical Institute
  CRISPR-Cas systems: from adaptive immunity to genome editing machines
  Dr. Rodolphe Barrangou, 2016 Canada Gairdner International Award Recipient - Assoc Professor, Bioprocessing and Nutrition Sciences, North Carolina State University

- **Vancouver Autophagy Symposium 2017**
  October 11, 2017 - 8:30am
  Autophagy and Neurodegeneration
  Dr. David Rubinsztain, FMedSci FRS - University of Cambridge
  Autophagy and Mitochondrial Dysfunction in Cancer
  Dr. Kay Macleod, PhD - The University of Chicago

- **BC Cancer Agency Research Day 2017**
  June 5, 2017 - 12:00pm
  Keynote: Stem Cells in Human AML
  Dr. Ravi Majeti - Associate Professor of Medicine, Division of Hematology, Cancer Institute, and Institute for Stem Cell Biology and Regenerative Medicine, Stanford University School of Medicine
