Colloquia

MSL/CHiBi Colloquia will typically take place on the second Tuesday of the month. This is equivalent to a “rolling retreat” in which MSL and CHiBi lab members present their research to the department’s personnel. The goal is to inform, get critical feedback, stimulate exchange of ideas and methods, spark collaboration, provide students with experience in presenting seminars. Three trainees will present from different labs and disciplines followed by refreshments and snacks in the atrium. All Colloquia take place in the MSL lecture theatre on the main floor.
