Seminars
Click the title to view full event details.

- BCCA Research Seminar Series - David Knapp, PhD
  January 8, 2018 - 12:00pm
  Engineering multi-layer synthetic circuits in human cells: challenges and solutions
  David Knapp, PhD

- Dept of Zoology Special Seminar - Dr. Fisun Hamaratoglu
  January 8, 2018 - 12:30pm
  Intertwined tumorigenesis highways: Ras and Hippo in growth control
  Dr. Fisun Hamaratoglu

- Department of Microbiology and Immunology Seminar - Dr. Daniel Slade
  January 9, 2018 - 12:30pm
  Identification and characterization of Fusobacterium nucleatum virulence factors critical for host-pathogen interactions in colorectal cancer
  Dr. Daniel Slade

- Microbiome Seminar Series - Alissa Cait, PhD Candidate
  January 17, 2018 - 12:00pm
  Understanding the effect of the microbiome and microbial metabolites on early life immune-development with long term consequences for asthma
  Alissa Cait, PhD Candidate

- Botany - Seminar: Jenny Jo (Exit Seminar)
  January 23, 2018 - 12:30pm
  Investigating montbretin A biosynthesis and elucidating acyltransferases in Crocosmia x crocosmiiflora
  Jenny Jo

- Botany - Seminar: Charles Copeland (Exit Seminar)
  February 23, 2018 - 12:30pm
  The role of protein turnover in the regulation of the plant immune system
  Charles Copeland

- Botany - Seminar: Brandon Landry (Exit Seminar)
  March 13, 2018 - 12:30pm
  Phylogenetic distribution of alpha-amanitin in British Columbia Galerina
  Brandon Landry

- Botany - Seminar Guest Speaker: Joshua Gendron, PhD
  April 3, 2018 - 12:30pm
  Disentangling protein degradation mechanisms of the plant circadian clock
  Joshua Gendron, PhD

- Botany - Seminar: Kyra Janot (Exit Seminar)
  April 19, 2018 - 12:30pm
  Chemical and mechanical convergence of joints in three lineages of articulated coralline algae
  Kyra Janot

- Botany - Seminar: Megan Bontrager (Exit Seminar)
  May 15, 2018 - 12:30pm
  Pollination, genetic structure, and local adaptation across the geographic range of Clarkia pulchella
  Megan Bontrager
