Seminars

Click the title to view full event details.

- **Open Invitation: Celebrating Jim Kronstad's leadership as MSL Director**
  - May 4, 2017 - 3:30pm
  - Dr. Jim Kronstad

- **Dept of Biochemistry and Molecular Biology Seminar - Sheila Teves, PhD**
  - May 8, 2017 - 10:00am
  - Transcriptonal memory through the cell cycle
  - Sheila Teves, PhD

- **BCCA Research Seminar Series - Anna M. Wu**
  - May 8, 2017 - 12:00pm
  - ImmunopET: Engineered antibodies for profiling tumors and immune responses
  - Anna M. Wu, PhD

- **Dept of Microbiology and Immunology - Dr. Michael Reth**
  - May 8, 2017 - 12:00pm
  - The sensing of antigens and the nano-environment of the B cell antigen receptor
  - Dr. Michael Reth

- **Dept of Microbiology and Immunology Seminar - Dr. Rosie Alegado**
  - May 9, 2017 - 12:30pm
  - Choanoflagellate-Bacterial interactions as a window into animal origins
  - Dr. Rosie Alegado

- **Dept of Botany - Dr. Ning Zheng**
  - May 9, 2017 - 12:30pm
  - Targeting Ubiquitin Ligases: From Plant Hormones to Anticancer Drugs
  - Dr. Ning Zheng

- **Dept of Biochemistry and Molecular Biology Seminar - Dr. Robert Walters**
  - May 11, 2017 - 10:00am
  - Control of gene expression by novel RNA modifications and cytoplasmic sequestration
  - Dr. Robert Walters

- **Microbiome Seminar Series - Mihai Cirstea**
  - May 11, 2017 - 12:00pm
  - Novel insights into the microbiome and Parkinson's disease
  - Mihai Cirstea

- **Final VanBUG event of the season - Dr. Melissa Wilson Sayres**
  - May 11, 2017 - 6:00pm
  - Quantification of species turnover along salinity gradients
  - Melissa Chen
  - Sex-biased genome evolution
  - Dr. Melissa Wilson Sayres

- **BRC Seminar Series Presents: Dr.Greg Dressler PhD**
  - May 12, 2017 - 3:00pm
  - Modulating TGF-beta, BMP, and WNT signaling in Animal Models of Fibrosis
  - Dr. Greg Dressler

- **Dept of Biochemistry and Molecular Biology Seminar - Alex Taylor, PhD**
  - May 15, 2017 - 10:00am
  - Beyond DNA & RNA: Synthetic Genetic Polymers
  - Alex Taylor, PhD

- **BCCA Research Seminar Series - Angela Brooks-Wilson, PhD**
  - May 15, 2017 - 1:00pm
  - The Super-Seniors Study: Healthy Aging and Genetics
  - Angela Brooks-Wilson, PhD

- **Thermo Fisher Scientific RNA Day and Product Show**
  - May 16, 2017 - 9:00am

- **Dept of Microbiology & Immunology Seminar - Dr. Andrew Lang**
  - May 16, 2017 - 12:30pm
  - Patterns and processes in viral evolution: from within infected individuals to the global scale
Dr. Andrew Lang

- **Dept of Microbiology & Immunology Seminar - Dr. Danielle Krebs**
  May 17, 2017 - 10:00am

- **CPhyGS Careers Night 2017**
  May 17, 2017 - 6:30pm

- **Dept of Botany - Yi-Chen Lee Exit Seminar**
  May 18, 2017 - 12:30am
  Secretion of cell wall proteins and mucilage in seed coat epidermal cell of Arabidopsis
  Yi-Chen Lee

- **Dept of Biochemistry and Molecular Biology Seminar - Dr. Nami Tajima**
  May 18, 2017 - 10:00am
  Molecular mechanisms of NMDA receptor function and regulation
  Dr. Nami Tajima

- **Dept of Microbiology & Immunology Seminar - Dr. Marcia Graves**
  May 18, 2017 - 10:00am
  Candidate for Instructor Position
  Dr. Marcia Graves

- **Discovery Talks - Dr. Jordan Smoller**
  May 19, 2017 - 1:30pm
  Psychiatric Disorders: From Genome to Phenome
  Dr. Jordan W. Smoller, MD, ScD
