Seminars

Click the title to view full event details.

- **Dept of Microbiology & Immunology Seminar - Dr. David Hibbett**
  May 23, 2017 - 12:30pm
  Getting to the roots of rot: phylogenomics of wood decay in mushroom-forming Fungi
  Dr. David Hibbett

- **Dept of Biochemistry and Molecular Biology Seminar - Dr. Selena Sagan**
  May 25, 2017 - 10:00am
  Host and Viral Determinants of Viral RNA Accumulation: from Hepatitis C Virus to Zika Virus
  Dr. Selena Sagan

- **Dept of Biochemistry and Molecular Biology Seminar - Dr. James Paulson**
  May 25, 2017 - 12:00pm
  Nanoparticles targeting Siglecs to suppress immune responses
  Dr. James Paulson

- **Dept of Cellular and Physiological Sciences Presents**
  May 25, 2017 - 12:30pm
  From Seeing to Believing: Visualization and Tracking of Extracellular Vesicles
  Dr. Charles Pin-Kuang

- **BCCA Research Seminar Series - Dr. Kenneth Rockwood**
  May 26, 2017 - 1:15pm
  “The problems of old age come as a package”: what does ageing mean for the diseases of old age?
  Dr. Kenneth Rockwood

- **BCCA Research Seminar Series - Rama Khokha, PhD**
  May 29, 2017 - 12:30pm
  Mammary stem cells and breast cancer
  Rama Khokha, PhD

- **Department of Microbiology and Immunology Seminar - Dr. Alison Buchan**
  May 30, 2017 - 12:30pm
  Unraveling the complex interactions of host-virus interactions on marine microbial physiology
  Dr. Alison Buchan

- **Dept of Cellular and Physiological Sciences Presents - Dr. Andrew Minchinton**
  May 30, 2017 - 12:30pm
  Tumour Hyposia- an engine to kill cancer cells: exploiting DNA repair in oncology
  Dr. Andrew Minchinton

- **Department of Microbiology and Immunology - Lecture Presentation Dr. Logan Banadyga**
  May 31, 2017 - 10:00am
  Candidate for Instructor Position
  Dr. Logan Banadyga

- **Department of Microbiology and Immunology - Lecture Presentation Dr. Logan Banadyga**
  May 31, 2017 - 10:00am
  Candidate for Instructor Position
  Dr. Logan Banadyga

- **Department of Microbiology and Immunology - Lecture Presentation Dr. Silvia Selleri**
  June 1, 2017 - 10:00am
  Candidate for Instructor Position
  Dr. Silvia Selleri

- **June 1st Research Symposium on the Epigenetics of Complex Disease**
  June 1, 2017 - 12:30pm

- **Dept of Biochemistry and Molecular Biology Discussion Group - Dr. Kristin Baetz**
  June 5, 2017 - 3:00pm
  Expanding the biological roles of the Saccharomyces cerevisiae KAT NuA4 through systems biology
  Dr. Kristin Baetz

- **Department of Microbiology and Immunology Seminar - Dr. Johannes Geiselmann**
  June 6, 2017 - 12:30pm
  Changing resource allocation and growth rate of Escherichia coli by a genetic control of transcription and DNA replication
  Dr. Johannes Geiselmann
- **PIMS Mathematical Biology and related seminars - Dr. Peter Lee**
  June 7, 2017 - 1:30pm
  Complexity of the Tumor Microenvironment
  Dr. Peter Lee

- **Dept of Biochemistry and Molecular Biology Discussion Group - Dr. Peter Tieleman**
  June 7, 2017 - 3:00pm
  Lateral lipid organization in model membranes
  Dr. Peter Tieleman

- **Dept of Zoology McClintock Lecture: Dr. Yishi Jin, Speaker**
  June 8, 2017 - 12:30pm
  Genetic dissection of synapse remodeling and maintenance
  Dr. Yishi Jin

- **BCCA Terry Fox Lab Special Seminar - Dr. David J.H.F. Knapp**
  June 8, 2017 - 3:30pm
  Engineered tRNA improve the specificity of guide RNA expression in inducible systems
  Dr. David J.H.F. Knapp

- **Depts of M&I and EOAS Seminar - Dr. Daniel B. Mills**
  June 9, 2017 - 10:00am
  Early eukaryotic evolution and the rise of the modern Earth System
  Dr. Daniel B. Mills

- **ICCN 2017**
  June 10, 2017 (All day)
