Katerina Politi, PhD is an Associate Professor in the Departments of Pathology and Medicine (Section of Medical Oncology) at Yale University. Katerina Politi studied Biology at the University of Pavia in Italy. She then moved to New York, where she obtained her PhD in Genetics and Development at Columbia University. Following graduate school, she began her work on the molecular basis of lung cancer as a post-doc at Memorial Sloan-Kettering Cancer Center. She joined Yale University in 2010 and continues this work focusing on the molecular mechanisms that underlie sensitivity and resistance to new cancer therapies, including targeted therapies and immunotherapies, in lung cancer.

Host: Dr. Will Lockwood

Videolinked to: FVC - room 2035, VIC - room #3, CSI - Shuswap room, CN - Salmon room, UBC Biomedical Research Centre - room 351, Michael Smith Labs - room 226, C&W - room K4-142
